

Ric Herbert teaches voice-overs and voice technique

Why Ric?

Ric has been employed over 14,000 times as a voice artist and session singer. He has worked for hundreds of clients, as the voice for numerous TV and Radio commercials plus promos for the ABC, XYZ, Cartoon Network and Sci Fi Channels. He is currently the voice of Channel 7's The X Factor.

Voice-Overs...

Ric teaches the art of voice-overs and studio technique privately from his home studio in North Bondi as well as for NIDA and AFTRS. He has given master classes for MEAA and Short and Sweet. Many people have benefitted from his insights and understanding. **Some are already working voices who want to upgrade their skills or focus on particular areas.** Others have gone on to fine careers in the voice industry.

Voice Technique...

Realising that people have very little idea about their vocal instrument, Ric developed a voice technique course called 7 STEPS TO YOUR WONDERFUL VOICE. He teaches privately, and recently taught 50 students for 3 terms at the Brent St Academy. Ric's experience helps to iron out problems, in addition to setting up understanding and confidence for working professionals.
